

# BIOFLORA CHICKEN NUGGETS™

## 3 - 4 - 2 + 6% Ca

**BioFlora Chicken Nuggets™** is a dry granular fertilizer, formulated to provide an excellent source of high quality organic nutrients for all types of plants. It is a balanced formula, which can be used for pre-planting or continued fertilization throughout the growing season for agriculture, on sod farms, golf courses, sports fields, nurseries, turf, tree farms and flower gardens. Only the highest quality materials are used in the formulation: fish meal, crab meal, alfalfa meal and dry poultry waste. Added to this mixture are humic and fulvic organic acids, seaweed cream and sulfate of potash. The final product is high in natural **NPK** (nitrogen, phosphorus and potassium) and secondary elements such as calcium and micro plant nutrients like iron. **BioFlora Chicken Nuggets™** will enhance new growth and improve the soil's beneficial microbial populations, thereby building on the plant's natural ability to develop vigorous plants.

**Guaranteed Analysis:**

Total Nitrogen (N) .....	3.00%
0.55% Ammoniacal Nitrogen	
0.20% Nitrate Nitrogen	
0.75% Water Soluble Nitrogen	
1.50% Water Insoluble Nitrogen	
Available Phosphate (P <sub>2</sub> O <sub>5</sub> ) .....	4.00%
Soluble Potash (K <sub>2</sub> O) .....	2.00%
Calcium (Ca) .....	6.00%

**Nutrients Derived From:**

Dry poultry waste, fish meal, crab meal, alfalfa meal, sulfate of potash and kelp (*Ascophyllum nodosum*)

**ALSO CONTAINS NONPLANT FOOD**

**INGREDIENT:**

2.0% Humic Acid derived from leonardite.

**Directions for Use:**

Apply material with banding applicator or broadcast spreader. It is recommended for best results to be applied with **Humega™** at a rate of 5 to 10 gallons per acre or 20 oz. - 40 oz. per 1000 sq. ft.

**Application Recommendations:**

We recommend the following general application rates of this *plant food*. Rates may need to be modified depending on local conditions.

**Agriculture** - Use 750 lbs. to 1500 lbs. per acre.

**Orchard & Vineyards** - Apply two cups of fertilizer for every one inch diameter of tree or vine. Apply to drip line and work into soil; water thoroughly. Apply every two months during the growing season.

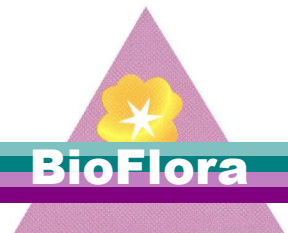

**Turf & Gardens** - Apply 18 lbs. to 36 lbs. per 1000 sq. ft. as needed.

**Shrubs** - Work 1 cupful into soil around drip line of plant every two months during growing season.

**Handling:**

Non-Toxic organic material. It is best to store in a cool, dry place. No special handling equipment is needed to apply this product. Gloves are recommended or wash hands after use.

**KEEP AWAY FROM CHILDREN. NOT FOR HUMAN CONSUMPTION.**  
**Note:** Buyer assumes all risk of use, storage and handling of this material. Neither seller nor its agent make any warranty, expressed or implied, concerning this product, except in conformity with statements on the label. Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>
